SCHOOLS AS TOPIC.

Hillsdale Citizens' Association Discusses Needs of Community.

School matters received the attention of the Hillsdale Citizens' Association at its May meeting last evening in Odd Fellows' Hall on Sumner road. There will be available after July 1 sufficient funds to erect a six-room addition to the present Birney School in that suburb, and the association will endeavor to have an assembly hall provided in the basement of this new addition. At the present time the school is without an adequate assembly room.

A committee was appointed to confer with the municipal architect and to urge upon him the necessity of beginning this work as soo nas possible after July 1, in order that the addition may be ready for ise, or nearly so, when the fall school

Funeral Services Tomorrow From Family Home in Kenilworth.

S. W. Street, for many years noted as a turfman, died Sunday at his home at Kenilworth, D. C., after a short illness. Funeral services will be held at the house at 2 o'clock tomorrow afternoon. Interment will be private. For more than twenty years Doc Sweet, as he was familiarly known, why not save money? It's the great arm that moves the universe, and had been a conspicuous figure on the eastern turf. Then, of course, the study "safety" is being given quite a little attention in some of the schools. Ernest L. Thurston, the assistant superintendent of public schools, recently sent copies of the "Rules of the Road" -which are abstracts of the traffic regulations pertinent to general traffic

Safety Work in Schools. Especial need for "safety" work has been felt in the schools for a long time because of the fact that many of the little children had to pass dangerous crossings in their journeys to and from the institutions of learning. Then, too, many of the buildings have no yard or grounds where the youngsters can play and so many of them run on the street when they forget the dangers attendant

Many of the schools, such as the Frankin building, 13th and K streets northwest, are in a line of considerable traffic. It hardly seems necessary to add that many of the drivers do not bother to slow down their vehicles in passing the schools. A petition signed by the residents of the vicinity of 5th street, between Massachusetts and New York avenues, has been sent to Maj. Sylvester, chief of police, asking that the street cars on 5th street be made to reduce their speed in going between those points. The residents complain that the cars often run at high and dangerous speeds, endanger-ing the lives of adults as well as children.

LOCAL CIVIC BODY FOR **UNIFORM TRAFFIC RULES**

S. J. Peelle and Charles D. Westcott Elected Chairman and Secretary, Respectively.

Uniform traffic regulations for every city in the United States, now being drafted from the rules in effect in New York and Paris, are proposed by the District of Columbia Council of the National Civic Federation.

The federation at its annual meeting, at the Willard Hotel yesterday afternoon, approved of the work of the committee on good roads and automobile regulations of that body, which is now drafting the set of regulations. These regulations are later to be submitted to the District Commissioners and

later to Congress for adoption. At the meeting yesterday afternoon Henry B. F. Macfarland presided and Frederick L. Siddons, the secretary, was in office. Little business, with the ex-ception of the election of officers for the ensuing year, was done. Mr. Macfarland and Mr. Siddons clined to take again the respective offices they held during the past year because of pressure of business, and former Chief Justice Stanton J. Peelle, who recently retired from the Court of Claims, was elected to the chairmanship, while Charles Drake Westcott was elected sec-

retary. Other Officers Elected.

The other officers elected were: First vice chairman, Rear Admiral C. H. Stockton, U. S. N., retired; second vice chairman, George X. McLanahan; third vice chairman, Arnold Hague; fourth vice chairman, Dr. Charles P. Neill; treasurer, George W. White.

The chairman of the council appoints the standing committees, and it is expected he will reappoint all of them, as follows: Reform in legal procedure, Henry B. F. Macfarland; uniform commer-cial laws, Walter C. Clephane; regulation of industrial corporations, Col. Archibald Hopkins; good roads and automobile regulations, William Phelps Eno; pure food and drugs. Dr. Harvey W. Wiley; compensation for industrial accidents. Grant gree of bachelor of literature.
